Dear Don:

Wow, what a pleasant surprise when I received your call. It was like ol home week, thank you very much.

I have been adding some of the ceremonials to the collection, that others purchased in the early 1940-50s and am now correlating all the information I have come up with thru the years.

I dont have any new pictures of them, as they still belong to me (because of the controversy) which gave me my excuse, but as I have told you, I would stake my life on them. however, as soon as I get the pictures I will send you some, I believe I have about 1000 or so of them now.

I was impressed with your scholarly background, when you get time do write me and your intrests.

I am also sending a booklet on the eccentrics a school teacher worked up ,but that Is all I have at present.

I certainly wish you could come up for a visit, I have plenty of room.

again thanks for your call, and hoping to hear from you real soon.

Most Sincerely,

Ce. 3. 5. 19
