

Copenhagen 25/1 1976.

To Dr. Crabtree!

Please recieve the subjoined reprint. As you will se from it, I have earlier on benefited from reading your papers on flint knapping. At pressent I am studying some late paleolithic settlement sites in Denmark. This includes analysis of the flint technique. I would therefor like to know if you have made any futher papers on the subjeckt since "An Introduction to Flint Working". In that case I would be very grateful to recieve a hint about where they have been published.

Yours
