Mr. Donald Crabtree
Kimberly, Idaho

Dear Mr. Crabtree:

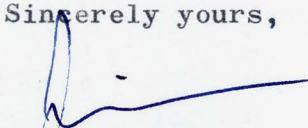

Under separate cover, I am sending the first portion of a manuscript dealing with a series of Paleo-Indian sites in southeastern Michigan. While working with this material last fall I became convinced that some type of heat treatment was taking place during one stage of manufacture.

I discussed this with Art Jelinek after his return from the Les Ezyies conference in November. He informed me of your work which I have cited through him.

I would like to have your evaluation of my interpretation of the Holcombe material. I would also like to know if I am quoting you correctly through Art?

Many thanks,

Sincerely yours,

James E. Fitting
Curator
