Dear Frisco:

I am sorry that there has not been enough hours in the day for me to find time to locate sawdust and mail you some flakes. As an alternative - if you would like - I will send you a sack of rough material by motor freight collect. You may like to check the rates before I send it. The friehgt in the West usually is about \$12.00 per hundredweight.

Please let me know before June 1st if you would like this material sent, as after that date I will be involved in a summer field school and won't have time for anything.

Please excuse my delay in replying and hope you can keep on with the flintworking.

Sincerely yours,

Don E. Crabtree
