Dear Rick:

Just a note to tell you how much we enjoyed our visit with you and to let you know that you have been selected to attend the lithic technology field school which will be held from June 11 to July 9th. You should receive formal notice from Swenson in a few days.

I understand that you plan to attend the S.A.A. meetings in Miami and wondered if you could fill in for me on a lithic tech. panel. It will be a reduced version of a symposium on functional and microwear analysis and I feel you could add a lot to the discussions. It is sponsored by Alan McHerron, Dept. of Anthro. at University of Pittsburgh and I have written to him suggesting that you take my place. Dick Gould will also be on the panel and this would give you an opportunity to discuss many things with him and hear of his actual observations of tool manufacture and use. Also, Joel Gunn will be on the panel and he, too, has been selected to attend the summer field school here in Idaho. Hope it works out.

Have a good trip to Miami and will be looking forward to working with you this summer.

With best wishes,

Don
