November 16, 1979

Don Crabtree
Rt. 1, Box 210
Kimberly, Idaho 83341

Dear Don,

We feel that we have recovered a tool used in fluting Folsom projectile points. We would like to submit a short report to Science and seek your comments on it. Please be very critical, do not bother to return the paper but please send your comments.

Sincerely,

A handwritten signature in blue ink, appearing to read "George C. Frison".

George C. Frison, Head

GCF/tlc
