April 11, 1977

Dear Don,

I would like to take this opportunity to thank you for inviting me down to meet Francois as well as letting me sleep on your floor. Also, I sorted out the materials you gave the Lab and there are well over 50 different materials. There are still 3 materials that I'm not familiar with so when you come this summer you will have to identify them for me. Thanks so much for the stone. Thanks for everything, your interest in me means more than anything than I could get out of a university.

Your Student,

*J. J. J.*
