## RUM·PA·PUM·PUM!

Christmas is come  
Filling the air--  
Joy's everywhere!

## WISHING YOU A JOYOUS CHRISTMAS

Dear Don - we have been so worried about you & do hope you are feeling better for the holidays. I wish you would at least let us know when you're going into the hospital, so we don't end up calling hospital admissions! (Jeff's done that, you know)

Jeff is doing so well - the end of graduate school is finally in

sight. But most of his success we owe to you. All your encouragement has meant so much to Jeff, not to mention your kind words & referrals to others in the field. You will always hold a special place in my heart for giving Jeff an opening in his career. Sure he's a hard worker - we both know that - but your help has been invaluable.

I know you & Evelyn hoped I would like Pullman so that Jeff wouldn't have added friction at home. Jeff & I have come along very well since we first arrived in Pullman & our marriage has too. But I feel we have a good marriage that will survive Jeff's travels & fieldschools - and successes - and I want you to know I always appreciated your concern.

Our thoughts will be with you this Christmas & our best wishes for better health in 1978.

Love  
The Hennkens  
Cathy, Jeff, Josh
