

Ce. 4.2.26.1

Dear Don -

We are still waiting for your call telling us your coming to do some work at the Lithius Cab and will be staying with us! I hope you know me well enough to realize it would be no imposition, and we would enjoy having you.

We have enjoyed Allen & Melanie living here - they are both such nice people - and WARC was glad to have a competent archaeologist to rely on as was Allen pleased to find work.

I am in school full time, trying to finish up my BA and at times feeling like a pre-nial Senior. But I enjoy it & feel the work is leading me towards a specific goal, so it's worth it.

Jeff was smoking some artifacts several weeks ago & ended up burning his right hand & his face. He now has no beard, eyelashes, eyebrows, & short hair. But he's fine now - his burns have healed - and

he was lucky to have had the beard to protect his face from 3rd degree burns. Now people in the department want to take up a collection for Jeff - to get him eyebrow pencils!

Wishing you
a joyful Christmas
and a bright
New Year!*

Our best wishes for a merry Christmas - and continued good health in 1979. We are all so pleased with the successful outcome of your last surgery. Now... I'll be waiting for your phone call telling us when your coming to stay with us.

Sincerely,

Cooky, Jeff, Josh
