Dear Don,

This is just a note to say that things are going well for the last 2 weeks in November. I have heard from Jeff Lovitt and Richard Magnus, at this point ~~and~~ both are coming. I have just returned from Glass Butte with 5 tons of prime stone, so there will be plenty to demonstrate with. Dick is taking care of the money for you and Evelyn. I think it is of great importance that you are here for this event. I have also heard from Joan Spalding (U. of Mich.) and will most likely invite her here for several weeks in December. How is the chipping going? I do hope ^{you} will be able to demonstrate when you come, but will understand if you can't. I want people here to see the best. Take care and I will see you both in 2 weeks.

Your student,

Dear Don and Evelyn,

I'm sorry for leaving after just a short time with you all, but I realized that you all had much more important thoughts on your mind. I do hope and pray that things work out the best for both of you.

Don, I really enjoyed the day we spent chipping. Techniques I had forgotten were refreshed in my mind. Seeing you chipping and looking at your collections always puts me back into perspective. As I have said before and I say again, there will never be another Don Crabtree. Your knowledge and skill will never be approached by one other person, it will take many.

On the way back, we collected about 400 lbs of hammerstones as well as 4 or 5 lbs of pine pitch. I think that the hammerstones

will last me for years. We had beautiful weather on the way back to view some of the most fantastic mountains I have ever seen. Idaho is truly a beautiful state.

Well, I'll be in touch. Thanks once again for the time you spent with Bob and me last weekend. And thanks again for everything you all have done. Take care.

Your student,

Jeff
