PORTLAND, INDIANA

4/2 8/68

Sir: Recently I was visiting in Ann Arbor, Michigan, at their medical school. While there I contacted Dr. J. B. Griffin of their anthropology department, regarding a problem that I have.

I live in the midst of Adena-Hopewell mound builder area of Indiana, and have been interested in their method of tool production. Dr. Griffin referred me to your publication "Tehuacan" and suggested I might get reprints on your articles on stone work.

Might I have reprints, especially of the articles in Vol 10, No 1., and Vol 9:1.

Sincerely,
E. M. Gillum MD
