Dear Mr. Gardner:

Thank you for your letter of Dec. 29, sorry that I have been out of the States for the last thirty days, hence the tardy reply. I will begin immediately to secure a collection of slides pertaining to the stone working experiments. Unfortunately, since I am working on the experiments I have no opportunity to take pictures. I was in hopes that during a recent filming sequence that there would be color slides available from the University, but find that they were made in black and white to be used for advertising the color movies. I do have some on skinning a bear at the Grasshopper Site using stone skinning tools, also a series of completed artifacts. Since time is of the essence I will send a selection for your approval.

Sincerely Yours Don Crabtree
