

UNIVERSITY OF HAWAII

Department of Anthropology

Sept. 22/72

Dear Don + Evelyn,

Thank you so much for that fine monograph on lithic technology - it's a truly outstanding piece of work. I was able to get some more copies of my old Point St. George site report (U.C. Press in Berkeley had more copies, even though it was listed as out of print!), so here is one for your interest. I hope to send a tape-recording of some Indian Shaker singing in a week or so.

I hope you enjoy all this stuff.

Cheers,

Dick
