

UNIVERSITY OF HAWAII

Department of Anthropology

December 29, 1972

Dear Don + Evelyn,

This is just a quick note to say once again how much all of us enjoyed your visit. The students were very keenly interested in your demonstrations, and there has been considerable activity on the "rockpile" since you left.

Betsy and I hope you had a good trip back and a nice Xmas. I am enclosing a couple of clippings which may interest you. The photos (including those of the eruption) turned out fine. I'll send you copies as soon as I can get them made.

Cheers,

Dick
