

Dear Don,

ce.4.4.66.1

Betsy and I both hope you are keeping well these days. Now that we are settled back into our routines here, our travels seem like another life. England was interesting and worthwhile, but Finland was really fun. Next semester I will give the lithics course here -- probably for the last time; since I hurt my back it is virtually impossible for me to do any sustained stone-chipping.

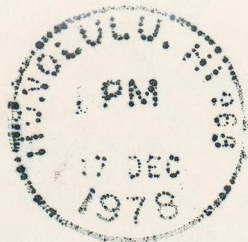

Luckily, Paul Cleghorn will be able to help me out with the key demonstrations, and we have plenty of good material. I was very pleased that Paul enjoyed Flinniken's field school last year and especially that he was able to meet you. His work with the Mamma Kea material is coming along well. Have a fine holiday season. Cheers, Dick + Betsy

Best Wishes
for Christmas
and the
New Year
