Dr. John W. Hoffman
Dwyer Memorial Hospital
420 32 Street, Milwaukie, Oregon
97222

Dear Doctor:

Thank you for your letter of July 30th and please pardon the delay in replying. My wife's illness with cancer has kept me away from home and the university and am just now catching up with correspondence.

An enclosing herewith reprint of an article you may not have. The other articles mentioned were printed in the Idaho State University Museum journal "Tebiwa". Unfortunately, the demand has been great and they are now out of print. However, Dr. Earl Swanson has had some xeroxed copies made and is now in the process of having all articles reprinted. These should be available now. He also has reprints on an article I wrote for American Antiquity journal on the manufacture of prismatic blades of obsidian in Mexico. Am sure this would interest you as they were used surgically by men of prehistory as well as for other purposes. If you will write direct to Dr. Earl Swanson, Idaho State University, the Museum, Pocatello, Idaho 83201 and request reprints of the "Tebiwa" articles and a reprint of the American Antiquity article, I am sure he will be glad to send them to you.

Thank you for your interest in my work and, again, my apologies for being tardy in replying.

Yours very truly,

Don E. Crabtree
