Mr. Albert C. Holler
3205 Wendhurst Ave. N.E.
Minneapolis, Minn 55418

Dear Mr. Holler:

Thank you for your letter of Sept. 21st and your interest in lithic technology.

Am enclosing herewith some reprints which may be of interest to you.

As far as I know there has never been anything written on the manufacture of artifacts other than what I have written which has appeared in the Idaho State University Museum journal "Tebiwa".

If you will write to the Museum of Idaho State University, Pocatello, Idaho 83201 and request any articles I have written on the manufacture of artifacts they will be glad to send you a list of publications and the price.

Thank you for your interest and continued success in your experiments.

Yours very truly,

Don E. Crabtree
