Dear Lucille:

Thank you so much for the publications; I received them today and I am very grateful because I only had one copy.

If it is possible that you have some off-prints of the Hohokam projectile point paper, I would be pleased if I could get a few copies of that issue.

I am enclosing answers to both of the letters that you forwarded, and enclosed is one other that you might send on the information to my friend in Wyoming.

Too, there are other movies besides the ones from Soltys Productions. Another is the one that Francois Bordes and I did in Berkeley. It is the Audio-Visual Department, University of California, Berkeley - Clyde Smith is the director. And, of course, you know The Shadow of Man that he may be interested in also.

My congratulations to Jean Swanson, but I guess I don't know her new husband. I am sure you miss Mae - I didn't realize that she had retired. You're doing a good job, and keep up the good work as you're my only contact with the University.

Thanks again for helping me out!

Your friend,

Don Crabtree, D. Sc.
