Dear Don:

Just as I had given up trying to find the paper you had asked for, I found it where it should not have been.

Since there was only one copy, I xeroxed nine, and hope they will do you some good.

We go to Lava about every other week. The apricots are ripe now. For years we didn't even know there was an apricot tree!

Well, I hope you feel well. Hospital hopping is not all that good, is it?

If you need anything, let us know.

Sincerely,

Lucille Harten
