Dear Mr. Hatch:

Don Crabtree has turned over to me your letter of 3~~24~~-70 to him. We are completing our 16mm films this next month and will turn, as part of our plan, to producing super 8 films for elementary and secondary classrooms. At the end of the present NSF film grant in October, Don will be officially working on a part or half time basis. Until then he is on a full time basis with Foundation projects.

Sincerely yours,

Earl H. Swanson
Museum Director
