University of Idaho

Dear Mr. Crabtree,

I have procured for you about a peck of the Eastern Michigan flint finally ( I had intended to do it in May!) and am ready to send it motor freight collect as we discussed by letter late in the last academic year.

I'm just a bit unsure whether I should send it to your mailing address in Kimberly or to Dept. of Soc./Anthro. in Moscow.

If you could let me know where to send it I'll get it off before the snows blow!

Sorry for taking so long on this.

Best regards,
