Dr. Jeff B. Havill
Alma College
Department of Art and Design
Alma, Michigan 48801

Dear Mr. Havill:

I am sorry for the delayed response for your very kind offer to send samples of Eastern Michigan flint. This delay has been due to unplanned illness and I am now heading toward a complete recovery.

I will be more than pleased to have you send the lithic material to my address in Kimberly. However, if you send by motor freight, it would have to go to Twin Falls. My phone number for the Twin Falls freightline to contact me is 733-3275. Perhaps it could be sent by United Parcel Service to my home in Kimberly, collect.

I am looking forward to sending you a sample of an artifact produced from this Michigan material. To date I have never had the opportunity to work with any Michigan materials. I will save a portion for the lithic lab at Washington State University at Pullman, Washington.

Thank you very much for your trouble and effort.

Best regards,

Don E. Crabtree, Research Associate
Prehistoric Technology
