Mr. Don E. Crabtree
Route 1
Kimberly, Idaho

Dear Don:

First let me thank you and Evelyn very much for the delightful visit to your home and country. I thoroughly enjoyed every minute of it and appreciate the time you devoted to my interests.

We also thank you for the many gifts. Taffy was thrilled with the purple jars and I appreciate the old lock and the flint and jade samples.

I looked up the data on your Colt Single Action Army and found that 83974 is one of 12,000 produced in the year 1882 and the DEC stands for David F. Clark, Inspector at Springfield Armory, Illinois from 1861 to 1886.

Under separate cover I am sending you some issues of SCIENCE for your inspection and disposal.

I told Earl how much I enjoyed my tour with you and that I though both the Blue Lakes and Jones Springs area look worthy of further test excavations.

I enjoyed meeting your folks. Please give them my regards.

Sincerely yours,

C. Vance Haynes
Assistant Professor of
Geochronology
