**VANCE, TAFFY  
& LISA HAYNES**

Ce. 5.1.72.2

WARMEST WISHES  
FROM THE "HENDERSON" LOG CABIN  
Now the HAYNES Home-away-from-home.

*in Missouri*

It stood where 'twas built more'n 100 years  
Then scheduled for destruction by Corps/Engineers

So we disassembled it "Abu Simbel" style - -  
Numbered the logs & chimney then moved 'em 4 mile  
To our 40-acre "chigger ranch" with a splendid view.  
Moving giant "Lincoln Logs" wasn't easy to do!

Then lovingly rebuilt with blood sweat & tears,  
We're sure it'll stand another 100 years!

How nice it would be to have a  
visit with you. Your room is always  
ready. Lisa sends her regards, as well.  
She is now a Wildlife Manager for Arizona  
Game + Fish. (She 1<sup>st</sup> female in that post in  
Ariz. -- I can't believe she's grown up  
so fast.) She's putting her Biology degree  
to good use + I'm sure the Wildlife will benefit!
