March 20, 1970

Dr. Joseph A. Hearst, Dean  
College of Liberal Arts  
Idaho State University  
Pocatello, Idaho 83201

Dear Dr. Hearst:

Thank you so much for the kind words in your letter of March 16th. I am happy to report that the demonstrations and exhibits at the American Museum were a great success. It was, indeed, an honor to have the opportunity to demonstrate at such a fine institution and the chance to reflect the help and encouragement I have received from Dr. Carl Swanson and the Department of Anthropology at Idaho State University.

Both Dr. Swanson and I would be greatly honored to have you present during future filming of the stone technology series.

Thank you again for taking your valuable time to recognize my small contribution to the Department of Anthropology.

Respectfully yours,

Don E. Crabtree
