Dear Mr. Hellweg: (Paul) Sorry, I didn't mean to be so formal.

Paul, my many thanks for the beautiful pictures. They will, indeed, be treasured and long remembered of such fine people. It was truly a joy to have made all of your acquaintances and do hope our paths will cross again. I don't know of any school that I have enjoyed so much. There was no single note of discord.

I have been worried about you in all of the rainfall and hope you have missed the mud slides and everything is intact. I was fortunate to have Tom Brown stop on his way back to Australia. We had a very pleasant visit, and by now he should be there.

I have heard from Paul Cleghorn and understand that he is now in Samoa. Also, Betsy Skinner and Betty Goerke and Jeff are now making plans for the coming field school. Hopefully I will be able to attend.

Again let me thank you for the beautiful pictures. You are indeed a skilled photographer.
