Mr. Julian D. Hayden  
4239 Bellevue Avenue  
Tucson, Arizona 85712

Dear Julian:

Thanks for your letter of March recommending June Rosenthal for our summer field school. We have not, as yet, received notice of the funding of the school but should hear shortly and it sounds favorable. Personally I would very much like to have Miss Rosenthal as an attendant and will recommend her for acceptance.

I would like her to bring along some of the grey basalt and shell so the students can have a try at working different materials. About all we have here is obsidian so this would be a welcome change.

I am sending a copy of this letter to the department staff so they can advise you when we know for sure about the school and also to have them make note of my recommendation of this student.

If possible, we plan to attend the meetings in San Francisco and will hope that you too will attend and we can visit further at that time.

Please give our regards to all the fine staff at the Museum in Tucson.

Cordially yours,

Don Crabtree
