Dear Don:

The box of obsidian arrived safely, and has been duly admired. Thank you.

Jane likes the smallest one, the gold sheen scraper, for a ring, and if she continues in her choice, I shall mount it for her.

What to do with the others? I take it the two large st are for ~~b~~llas? Shall I put a bola mount on one for Emil Haury?

We look forward to seeing you when you come through, and the red carpet will be out.

Best to you both,

  
Julian
