Dear Don:

Here's a set of slides that I long ago promised you. I hope the range of things is what you wanted; let me know if there is any other specific item(s) you might want a slide of.

Tom Kelly and Fred were back in Belize for 10 days, doing survey in milpa-burned areas across the creek. Fred found two large Classic period eccentrics on the top of one mound. They also visited another chert workshop site near Altun Ha, and found a new site (maybe a "port of trade") at the mouth of the Maskall/Northern River, near the sea.

Take care.

Best regards,

*Tom*
