DEPARTMENT OF ANTHROPOLOGY  
MACHMER HALL

JUL 22 1972  
July 19, 1972  
Amherst, Mass.

Mr. Donald Crabtree  
Idaho State Museum  
Pocatello, Idaho

Dear Mr. Crabtree:

Please excuse me for having been out of contact so long. I read your papers on the obtuse angle and on Hohokam stone work. Both are fine but I am afraid that the Hohokam paper is much too long. The paper on the obtuse angle is the right length for the book and in addition it would seem to me of greater field-wide interest. If it is alright with you, I would like to include this paper in the book. The next step would be for you to send me a complete and final draft including photographs with captions. Also, would you mind if I did minor editing of the text? I would send back an edited version for your approval, of course. Editing would be of sentence structure, words, etc., only. No ideas or concepts would be "edited".

I have no chance at all of making the September date; at present I am hoping for January or February as a manuscript deadline for the entire book.

By the way, if you want to get in touch with me, please call collect at 617, 544-7426.

I hope you and your wife are in good health.

Sincerely,

Dan Ingersoll

P.S. I just heard that a few new films showing you and Bordes working are now available. Congratulations.
