Dear Art:

Thank you so much for sending the book on Typeology. It is invaluable to me for reference of correct terms and nomenclature to describe flakes and artifacts. For this book I am most grateful.

I did not know that Laurent had a book out and shall request one from Francois, as this man has a truly fine sense of humor plus much ability as a cartoonist.

We are sorry you missed the meeting in Reno. There were so many of your friends there and all the attendants had such a good time with the numerous gaming devices and floor shows.

The tapes have not, as yet, arrived, but presume they are in the mail. Hope our transcription will be satisfactory and that you will be pleased with your copy.

Sounds like you have outlined a very busy and most interesting coming year and my best wishes for your success with all your projects.

Sincerely,

Don E. Crabtree
