

Dear Edwyn -
Don't you have
trouble with my
branch writing its
not my fault - I have
a small warm coat in
my lap. Hope you had a
good 75 and will have one
even better 76. Since we moved
into our very own house, we've really
been running. A month after we moved
Tracy took off for 2 months field work while
I stayed home writing, researching, planting
& making a slip cover! I'm still making the slip cover...
then just before Tracy got home my 14 year old niece
came to live with us for the year - a very nice
girl, but 14 is an awful talking, my family
also gave a large housewarming, my family
was here for Thanksgiving + Tracy's parents for
Christmas & I taught 3 courses (including 105
kids in Intro.) as well
for the last week
around reaping
front of the Franklin
got working on the
took many hair to You and Yours
the roof while trying to fight
trying to tell him
have to. Much love to you both
a stay well.
hucy
+ Tracy
