Katz

Professor William Garland
Western Michigan University
Dept. of Anthropology
Kalamazoo, Michigan 49001

Dear Dr. Garland:

Paul Katz advises me that he has applied to your department for a position and I wish to take this opportunity to recommend him for acceptance.

Paul attended our summer field school dealing with lithic technology and I found him to be a very good student who was able to apply the processes of lithic techniques to typeology. He was quick to realize the importance of analyzing the characteristics and features of various techniques to his description of stone tools. I found him well versed in all subjects of anthropology.

I am more than happy to recommend Mr. Katz for acceptance in your department and feel his contributions of information on the prehistory of man will, indeed, be of value to your students.

Sincerely yours,

Don E. Crabtree
Research Associate in
Prehistoric Technology
Idaho State University
Dept. of Anthropology
