Don-
Are you interested
in doing this?

E.H.S.

Dear Earl:

Nancy Lurie is putting in a new Environmental Hall here at the MPM and ~~needs~~ needs a real core and flakes form it that is very vivid in showing flint knapping. I wonder if Don Crabtree would do me a personal favor and make her one out of flint (please see exactly what Nancy wants in the enclosed write up by her). Please send these on to Don since I do not have his correct address. She would like them as soon as possible and has funds to pay for them. Have Don write to her for any further information that he might need.

Dr. Nancy Lurie, Head
Anthropology Department
Milwaukee Public Museum
Milwaukee, Wisconsin 53233

I am sending you under separate cover a gratis copy of my new monograph on the Gull Lake, Bark site. Since I was only given twelve author copies and the book sells for \$11.50, I will not be able to give more than one copy to the Pocastelle archeologists so please share it with Bob Bultler anyone else that might need to use it. I am forever grateful for all the Tebiwa publications and other monographs that both you and Bob have sent me gratis but I am unable to send out more copies since they were heartless in this respect here at this Museum.
