St.
Calgary, Alta.

Dear Mr & Son.

I am just now getting a letter off to you kind people. We received your letter & then the wonderful arrowheads & some more blades. I do hope you receive this before you leave for Paris. What a trip that will be, I am so happy for you.

I am so late in writing because I had a real bout of the flu. I didn't stay home from work but should have, but there is so

so much work to be done
the first few weeks I
could not have possibly
stayed home -

I did want to get
back to that shop &
get that stone pin for
you, but I have not
been back since. Maybe
within the next couple
of weeks I'll get down-
town again.

I am just now
sitting in the Beauty
Shop getting my hair
done & under the dryer,
and trying to balance
this paper on my knee.

You couldn't begin
to know how much
I enjoyed meeting

you both - You are both so happy and enthused about life & now you are about to go on your wonderful trip. I am so pleased for you & you will be meeting such interesting people. You'll be in your element - Wonder what you'll drag home from France that you might find in some quaint shop.

Our boys are thrilled with the arrowheads. Scott (the 7 yr old) ask me if he could have the red one when

I died! I said
you don't have to
wait for me to make
an exit - you
can have it now. Of
course we keep them
all very carefully in
the back of the china
cabinet!

We are looking
forward to the day you
come our way again,
we would love to
have you out to
our "acreage" along
the Little Red Heart River.

Mr. Forbes & Mr. Mac Neish
are very very busy, it
should settle down soon
Thanks so much again
& have a wonderful trip
Sincerely Horeen Kellock

Ms. A. 1. 36. 4
