

Dear Norman:

Congratulations to you for a most successful conference. I was most impressed by your organization and how you have accelerated the interest and enthusiasm of all of the participants too you have gained the confidence of the Belizeian people including the Governor, Mr. Powell and of tremendous importance is the friendship and the confidence of all the good people of the Maisson Plantation.

Norman., it is indeed mind boggling to even think of all of the technologies represented at the sites so briefly examined
