Dear Peter:

I can't tell you how much I enjoyed your visit even though it was unduly brief. I received the artifact from New Jersey for which I thank you very much as I will use that particular piece for demonstrating percussion flute removal.

I shall always treasure the specimens that you have provided from Grand Pressigny. I have been working on some experiments, but it looks like they are going to continue for some length of time. It is a real challenge.

I do hope that you were able to see Johnny Dixon while in Las Vegas as I am sure you both had much in common. Also, did you have the good fortune of meeting Junius Bird when you were in New York? I am glad your seminar in Las Vegas was so successful.

In your short stay in Idaho you made many friends and most have expressed their good wishes to you including Gene and Wilma Titmus. Also, Jim Woods asked whether I had heard from you since you left. I am sure everyone would look forward to another visit.

Again, Peter, so many thanks for your kindnesses and the wonderful specimens.

Your friend,

Don Crabtree
