Dear Ruthann:

Thanks so much for transcribing the tapes and for sending me a copy. I know this was a big job and do not envy you the future job of doing the working session tapes. Would also appreciate a copy of those and will do a similar edit job, if you wish.

I am just no good when it comes to taping and, therefore, have done a little editing of the tapes. I am sure you will find this copy much more understandable.

Am looking forward to seeing you at the Great Basin Conference the last of August where, I hope, we will have a chance to discuss further lithic technology. Meantime, good luck on your move to Pullman and congratulations on getting the opportunity to work with Irwin and Daugherty on lithic technology.

Sincerely,

Don E. Crabtree
