Dear Don and Evelyn:

You are hereby formally and cordially invited to a meeting of the Lithicology and Prehistoric Anthropology Contributors, which will be a reception/business meeting held on May 8th at 6-7pm in the Florentine Room of the Adolphus Hotel, Dallas, Texas. You are being invited as guests of the Contributors, and Paul and Susanna Katz have made all the arrangements for the event. Should be fun, amidst the hussle and bussle of everything else!

In addition, Dennis Stanford told me that he would like to have you visit the Jones-Miller Hell Gap site in eastern Colorado this summer, if you have the time. He just received a National Geographic grant to support another year's work on the site and collection, and while he has little funds available for honoraria, he could reimburse you for expenses. It sounds like a fabulous site, and I'd sure like to see if. He won't

CC.6.3.27

be in Dallas, I understand, so I imagine he would appreciate it if you would get in touch with him and see if you could coordinate something. I understand he's leaving Washington for the site in mid-May, but until then, he's at the Smithsonian Institution and his phone is 202/381-5961.

Sorry to hear that NSF grant for flintworking didn't go through; can I help with anything to take the place of that proposal? Maybe we could talk about it in Dallas.

I am working on casts of the Red Smoke material, so far just learning the technique and doing everything in black so that the technology is apparent. We're getting there! And I did get the money for the Boundary County work, so we're heading north in July. Should be a busy summer!

I was a bit shook to hear about Scotty's heart trouble; I sure wish he were going to China after all his work, but I'm sure Marie will do an excellent job. See you in Dallas!

Chao,  
Suttham
