Dear Ruthann:

Enclosed are some additional letters.

I am still thinking about the Dolores project and haven't been able to come up with a thing. I do hope you get this resolved soon. Thank goodness Wilma's helping me today and we have gotten out a number of letters.

We are now working on the Belize report for Tom Hester and when that is finished we'll start on the Peabody Institute report on quarries. I think that the tape is going to be a big help.

I do hope things are going well with you. Jeff was unhappy because he was an "american colleague" rather than being called by name in the current issue of National Geographic. I just received from my sister the University of Idaho Context with a nice write-up about the four honorary recipients.
