Dear Ruthann:

I am enclosing accopy of the letter that Jim Woods wrote to the Times News regarding the overpublicized amateur digging as was demonstrated ~~at~~ our local gem and mineral society show. I felt this was good of Jim to follow-up without mentioning names about our local collectors vandalizing and destroying our local sites.

I haven't been able as yet to follow-up on the donation of the published materials for the University of Idaho library. I do hope it will be possible that I may be able to send in an amended income tax, but if I have to show receipts for the cost, I have no way of doing so.

I heard from Marie night before last, and she is planning on going to Africa - probably in December - in association with Mary Leakey. She is looking forward to being away from home during the Christmas holidays. I hope that this materializes for her. As for me, over the holidays I usually go to the hospital - hopefully not again this year.

I will give you a call soon to get a complete coverage of your activities.

Love,

Don Crabtree, D. Sc.
