Dear Ruthann:

I have been away from home so am tardy in replying to your letter of March 2nd. I sent a copy of your letter to Dr. Swanson for he makes the final selection of students who attend the field school. There are to be four persons selected for this year. I do not know if Dr. Swanson has made any commitments regarding the school, but will recommend you for attending.

I am sorry to hear of your broken foot and hope that by now you are without a cast. You have my sympathy. You are fortunate to be able to examine so much Paleo-indian lithic material and I am sure that you would be able to contribute a lot of information to the students of the field school. This exchange of information among the people attending is so important. The cross pollination of experiences, diverse geographical representation and ideas has added to the success of the school.

I am in hopes that you will be able to attend.

Sincerely yours

Don C. Crabtree
