Mrs. Ida Little
Gooding, Idaho

Dear Mrs. Little:

In answer to your letter of Oct. 6, my collection is now at the Idaho State University and not at my home. It is being catalogued and is not at this time on display.

At present, I have a large supply of obsidian, so would not be interested in buying more. However, thanks for your interest and offer.

Your collection of arrowheads should be of interest to the State Archaeologist, Dr. Max Pavesic at the Idaho State University Museum, Pocatello, Idaho.

Sincerely yours,

Don E. Crabtree
