Tucson, Arizona

Dear Bill:

I did not have much time at the meeting to discuss the trip to Grasshopper and think you left the dates up to me. Right now, July looks pretty crowded, so was wondering if it would be all right with you if I set the dates up a little.

Plan to leave here on June 25th and would arrive at the Grasshopper site (if I can find it) on the 26th. After you finish with me there, then plan to spend a day or two with Paul at Vernon and then visit Cynthia's site in New Mexico.

If these dates are inconvenient for you, please let me know and we can make it after the 4th, but if it is okay then it will help my July schedule.

We will look forward to seeing you and all the staff and students again. Please give my regards to Ray Thompson and the staff.

Yours sincerely,

Don E. Crabtree

Don
