Dr. Jose L. Lorenzo
Departimento de Prehistoria
Moneda 14
Mexico City, 1, D.F.

Dear Dr. Lorenzo:

Both my wife and I want to thank you for your hospitality during our brief visit to Mexico. You are to be complimented for the enthusiasm you have instilled in your students and the wonderful fields you have projected for them. After your training they will have a profession that will be a joy rather than a drudgery, and such people will go far in making contributions to science.

I do hope your knee has fully recovered and that surgery will not be necessary.

After we saw you, we visited the National Museum and were so grateful to have seen some of the actual material from Mexico. Otto Schondube permitted us to visit the warehouse of material in the basement and I saw great ceremonials of exquisite workmanship and many styles of stoneworking techniques. The hospitality of the Mexican people is most rewarding and I am so sorry that Francois could not have been there with us to enjoy the city and people as we did.

We do hope that in the future you can visit Idaho and permit us to repay you with equal hospitality. If there is anything I can do for you or send you to help in any way with the students, please let me know.

We will be attending the meeting in Reno on the 5th of May and will be hoping that you, too, will be there. Will be sending you some publications as soon as they are off the press.

Thank you again and please give my regards to Senors King. Cook, Montes and Villasenor. I enjoyed my visit with them very much.

Sincerely,

Don E. Crabtree
