Conservacion and Resturacion de Biene Culturales
Convento De Churubusco
Mexico, 21, D.F.

Dear Jose:

Evelyn and I are delighted to hear that you are coming to the States this Spring and hope your trip will include a visit to Idaho. Dr. Swanson says to tell you that he, too, is looking forward to your visit to Idaho State Univ.

Congratulation on your new position but I do hope this will not increase the work load. With the abundance of archaeology in Mexico, you are already much too busy.

Saw Francois in Urbana, Illinois on Dec. 2nd where we held a workshop for about 250 people. He was in fine spirits and says Denise is much improved. She was in Boston with Cecile and the new grandson. Francois plans to be in Idaho at Easter time and it would be nice if your visit would coincide. What a reunion we could have. We have been invited to head a seminar at Washington State University - about 400 miles from my home - and your presence there would be a bonus for all of us.

It is so good to hear from you and will look forward to seeing you in the Spring.

Your friends,

Don and Evelyn
