Dear Don;

By Lorena I knew that you have undergone major surgeries and now you are in a period of recuperation.

It is a pity that Lorena can't work with you, but if she will be with somebody you are recommending I think it will be all right, and probably she can fly to see you or as you told her in your letter, if you are in better health, you will fly to Pullman.

For you and Evelyn my best wishes and I hope to see you soon in this country, if the altitude permit you that.

Yours sincerely

PROF. JOSE L. LORENZO.
