Dear Don and Evelyn,

Just a belated thank you for that weekend at your house. It's just impossible to spend any time with you and not learn a lot!

I got back from N. Carolina late last night. Had a fine time at the wedding, but somehow managed to cut a finger on my left hand, which is why the typing is worse than usual. Mae is starting to type the Obtuse Angle paper now, and I have a question about the acknowledgements. Am not sure who to include for what. Dr. Swanson, Guy, Evelyn, Mae and myself--anyone else? If so, please let me know soon. If not, I'll just go ahead and do it.

Thanks again for the weekend at your house, and do have a good time in Illinois.

*Chris*

Hope to get the biblio. ready to type before Xmas.
