Dear Don and Evelyn,

Just a fast note to let you know that I've gone through Hester's Lithic Bibliography and checked it against the one we were compiling. There were lots of things in his that we didn't have, and even more in ours that he didn't include. So, I've gone through ours and checked off every entry he didn't include. The secretary will type up the list and send you a copy as soon as it's ready. It was pretty long and will probably trun out almost half the length of the original bibliography. I just don't know what Dr. Swanson is planning to do with this final list. It may be he's leaving that up to you.

Thanks for coming up Monday. Have fun with the new camper and I'll see you in a month or so.

*Chris*
