

21 July, 1969

Mr. Don Crabtree
Route 1, Box 39
Kimberly, Idaho

Dear Don:

Nice to hear from you again. Damn Louis Dupree ! He ran off to Afghanistan without leaving me those cores and several other things. However, I should be able to describe them fairly accurately and I hope to have samples sometime during the year, and I'll either bring them down or send them to you when I get them.

Your description of the field school makes me pine. I had wanted very much to come out and be a participant, but time was against me this year. Glad Lucy is working out so well. She's one of my favorite people around here.

I just looked at a road map again, and realize that it will take me four to five days to drive from here. Since I can't really leave much before the 5th and I would like to stop for a day in the Tetons and in Boulder I think it would be better for me to say I'll arrive between the 11th and 13th. So please don't let me keep you from Lava Hot Springs on the 9th and 10th. If I'm going to be delayed I'll call you. And I do think I'd rather visit you in Kimberly.

It all sounds too good to be true, and I'm looking forward to seeing you again. If we have to change plans, I can be reached at my parent's home after 31 July. The address is 101 N. Highland Pl., Croton-on-Hudson, N.Y., 10520.

Yours sincerely,

David

David Lubell

P.S. I'LL PROBABLY CALL FROM DENVER
OR THE TETONS WHEN I KNOW EXACTLY
WHICH DAY I'LL ARRIVE. IS THAT
ALLRIGHT ?
